Support for this FUDCon has been graciously provided by the following:

Welcome to FUDCon Milan!

I'm thrilled that you could attend the conference, and I hope you have a fantastic experience.

Fedora Community members have been working for months to help plain this conference and have prepared this booklet to help you make the most of your **FUDCon**. Please take the time to read thorught it so that you understand when and where various pieces of the conference are happening.

I'd also like to especially thank the **University of Milan Mathematical, Physical and Natural Sciences** for their help and generosity. We could not have a planned a successful **FUDCon** without their assistance.

There are a few other details I'd like to hightlight:

- I know that free software enthusiasts aren't always early risers, but please make every attempt to be to the conference sessions on time. This will help ensure that we can keep to the planned schedule as much as possible.

- Please note that our conference events are distribuited across a number of buildings around the campus of University of Milan. Please make sure you plan ahead so that you can arrive on time.

- Be safe. It should be self-evident that we want everyone to stay safe during the conference. If you have an emergency, please call 118. There's additional emergency information on page 7.

- While we're glad you could make it to FUDCon, please remember that the vast majority of Fedora contributors aren't with us here at FUDCon. Please use the Internet to share your FUDCon experience as much as possible with the people who aren't here with us. See the right side of page 7 for information on IRC channels, blogging and microblogging.

- Please take the time to get to know the Fedora contributors at the conference. I look forward to meeting as many people as possible at FUDCon. The social relationships we build at FUDCon will help our work in Fedora go more smoothly and build on the trust in our community.

One again, I look forward to meeting with you at FUDCon, and hope you have an enjoyable experience in Milan.

If you have any questions, please don't hesitate to contact me or another member of the FUDCon planning team.

Welcome to Milan!

LOCATION:

Milan, the capital of Lombardy, has a population of 1.3 million people. It is the biggest industrial city of Italy with many different industrial sectors.

It is a magnetic point for designers, artists, photographers and models.

Milan has an ancient city centre with high and interesting buildings and palazzos, which is why so many people from all over the world want to see the city of glamour.

Milan is recognized as a world fashion and design capital, with a major global influence in commerce, industry, music, sport, literature, art and media, making it one of GaWC's major Alpha world cities

Blogging

If you are writing blog posts about FUDCon, we welcome you to join us in the Fedora Planet. Adding your blog to Planet requires a FAS account that has signed the CLA and is approved for one additional group. If you are new to Fedora but know someone who would be willing to add your blog to Planet ask them.

If you were sponsored to come to FUDCon, we request that you write at least one blog post for Planet: planet.fedoraproject.org

HOW TO JOIN ur1.ca/2rwbu

Microblogging

Microblogging is one of the best ways to FUDCon and receive timely updates from event organizers and attendees. Use the hashtag #fudcon, which can be monitored from your favorite microblogging client.

IRC channels

Our main IRC channel on Freenode is #fedora-fudcon. If you are transcribing a session, please report the session name and IRC channel to the main channel. If you are using Gobby or EtherPad in your hackfest, please make a note of this in the main channel as well.

Have fun and enjoy FUDCon
