

INVITATION

Authors are encouraged to submit a high-quality and original **Research Article (limit 8-12 pages)** with novelty and clear authorial contribution, which has not been published or accepted for publication by other journals. The proposed **research must be within the scope of the journal**, otherwise it cannot be accepted for processing. The relevance of the proposed article to the scope of IJITS can be supported by citing relevant publications from it.

Articles of the type **"Review of an article" or "Study" are not acceptable**, as the use of a very large number of references is typical for such types of articles.

Submitted manuscripts must be written in English. The total number of pages (120-140) and the number of articles (10-12) for each issue of IJITS are limited and cannot be exceeded.
