### **Tusayan Ranger District Fuelwood Permits To Be Available In Cameron**

TUSAYAN, Ariz. – The Kaibab National Forest will issue free-use, paid personal-use and ceremonial fuelwood permits for the Tusayan Ranger District out of the Forest Service office in Cameron, which is located just south of the Cameron Chapter House, beginning this month.

The fuelwood permits will be available out of the Cameron office from 9 a.m. to noon and from 1 to 5 p.m. Daylight Savings Time on the following dates:

- April 21
- May 12
- June 9
- July 14
- Aug. 11
- Sept. 15
- Oct. 14
- Oct. 27
- Nov. 10
- Nov. 17
- Dec. 8
- Dec. 15

Permits are also available at the Tusayan Ranger District office, (928) 638-2443, during regular business hours Monday through Friday. Permits will be issued for dead and down (dead standing and downed trees) and green fuelwood cutting. Dead and down permits are sold for \$5 per cord. Green permits are \$10 per cord. There is a minimum purchase of \$20 per permit. Cords will be sold in increments to meet the \$20 minimum. Free-use permits will also be issued for the removal of downed wood within designated areas. A maximum of six cords (combined) of paid fuelwood may be purchased per household. An additional four cords of free-use fuelwood may also be issued.

The Kaibab National Forest has a policy for providing free forest products to Native Americans for traditional and cultural uses. A permit is required for the collection of fuelwood for ceremonial purposes. Detailed information about the policy is available on the Kaibab National Forest website at <http://go.usa.gov/kWKV> or by contacting Mae Franklin at (928) 679-2037 or [mfranklin@fs.fed.us](mailto:mfranklin@fs.fed.us).

All visitors to the Kaibab National Forest are reminded to always be extremely careful with fire. Fuelwood cutters should be aware that chainsaws can throw sparks and ignite grasses and brush. Always carry a shovel and a fire extinguisher or water in case of a fire start. Additionally, all chainsaws must be equipped with a stainless steel spark arrestor screen. Cutters should check with forest offices periodically for information about the implementation of fire restrictions.

For additional information on gathering fuelwood on Kaibab National Forest, please visit [www.fs.usda.gov/goto/kaibab/fuelwood](http://www.fs.usda.gov/goto/kaibab/fuelwood).
